RECYCLING CONTAINERS - WHAT, AND WHAT NOT, TO THROW AWAY

(Our Community pays tax on the rubbish sent to landfill sites - so please re-cycle carefully)

As of 19th January 2015:

• STV can collect large unwanted household items from HR, for example, mattress, wood, furniture, metals, washing machines, fridges, other small gadgets

• Residents need to contact the HR self-admin team and let them know what the item(s) are and when it would be left by the bins closest to their apartment. You can contact them by email - support@hrgradmin.com

• Then, the HR self admin team will contact STV so that they go and pick it up within the same day, the following day, or the following working day if they are informed during the weekend.
